INDEPENDENT AUDITOR'S REPORT TO THE BOARD OF FUND OF THE NATIONAL FUND FOR MUNICIPAL WORKERS

Report on the Audit of the Financial Statements

Opinion

We have audited the annual financial statements of National Fund for Municipal Workers ("the Fund") set out on pages 19 to 38, which comprise the statement of net assets and funds as at 30 June 2021 and the statement of changes in net assets and funds for the period then ended, and notes to the financial statements, including a summary of significant accounting policies. The financial statements are prepared for the purpose of reporting to the Financial Sector Conduct Authority ("FSCA").

In our opinion, the financial statements of the Fund for the period ended 30 June 2021 are prepared, in all material respects, in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter – Financial reporting framework and restriction on use

Without modifying our opinion, we draw attention to the principal accounting policies in which the applicable financial reporting framework is identified, as prescribed by the Authority. Consequently, the financial statements and related auditor's report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Other information

The Board of Fund is responsible for the other information. The other information comprises the information included in the Annual Financial Statements in terms of section 15 of the Pension Funds Act of South Africa, of the Fund for the period 01 July 2020 to 30 June 2021, but does not include the financial statements (schedules F, G and HA) and our auditor's report thereon (schedule D)

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Fund for the Financial Statements

The Board of Fund is responsible for the preparation of the financial statements in accordance with the Regulatory Reporting Requirements for Retirement funds in South Africa and for such internal control as the Board of Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Board of Fund is also responsible for compliance with the requirements of the Rules of the Fund and the Pension Funds Act of South Africa.

In preparing the financial statements, the Board of Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Board of Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the Fund's internal control.
- Conclude on the appropriateness of the Board of Fund's use of the going concern basis of accounting and,
 based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions
 that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a
 material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures
 in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are

based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Fund.

We communicate with the Board of Fund regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

The Statement of Responsibility by the Board of Fund describes instances of non-compliance with laws and regulations, including those that determine the reported amounts and disclosures in the financial statements that have come to the attention of the Board of Fund and the corrective action taken by the Board of Fund. There are no additional instances of non-compliance with the Pension Funds Act that came to our attention during the course of our audit of the financial statements.

Loans to members were granted in terms of rule 9.12 and 9.13 of the rules of the Fund and section 19(5) of the Pension Funds Act in South Africa, and are secured by members' withdrawal benefits and/or mortgage bonds.

The Fund has issued housing loan guarantees in terms of rule 9.13 of the fund and Section 19(5) of the Pension Funds Act. Each guarantee is secured by the fund credit of the respective member. The loan is limited to 60% of the respective member's fund credit.

7. INVESTMENTS IN PARTICIPATING EMPLOYERS

No investments in participating employers have taken place.

8. SIGNIFICANT MATTERS

Mr Sean Samons left the position of Principal Officer of the Fund on 8 May 2020. The then Deputy Principal Officer, Mr Leslie Ndawana assumed the responsibility of the duties of Principal Officer from 8 May 2020 until 31 July 2020 when he was substantively appointed as the Principal Officer of the Fund effective 1 August 2020.

Impact of COVID-19

Fund performed well in a very challenging investment and economic environment as a result of the COVID-19 pandemic. The global (and local) investment environment for the 2020/2021 financial year improved significantly after the pandemic lows experienced in early 2020. The reaction and repercussion on the world and local markets

SCHEDULE E REPORT OF THE BOARD OF FUND (continued) FOR THE YEAR ENDED 30 JUNE 2021

experienced since March 2020 were unprecedented. Despite this, the excellent returns added to our members' fund credits during the last financial year is testament to a well-diversified and robust long term investment strategy.

The Fund's operations were not negatively affected by COVID-19 as the Fund switched to remote working. The Fund remained fully operational since the beginning of the national lockdown at the end of March 2020 to date. Our administration systems underpinned by modern information technology assisted the Fund to continue operating without interruptions.

The Fund effected a Rule Amendment to provide for financially distressed employers to defer, suspend or reduce contributions. However, the employers that had always had difficulties to pay (or pay on time) their contributions were essentially the employers that notably did not comply with Section13A of the Pension Funds Act.

Overall, the Fund was well-positioned to address the impact of COVID-19 and the Fund continues to refine its approach to operations and investments to cater for the uncertain future.

9. LIVING ANNUITY

Retiring members may invest all or part of their retirement benefits in the NFMW In-Fund Living Annuity if the retiring members meets all the requirements.

SCHEDULE HA NOTES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

1. PRINCIPAL ACCOUNTING POLICIES

The following are the principal accounting policies used by the Fund. These policies have been applied consistently to all years presented, unless otherwise specifically stated.

1.1. PURPOSE AND BASIS OF PREPARATION OF ANNUAL FINANCIAL STATEMENTS

The annual financial statements are prepared in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa, the rules of the Fund and the provisions of the Pension Funds Act.

The annual financial statements are prepared on the historical cost and going concern basis, except where specifically indicated otherwise in the accounting policies below:

1.2. PROPERTY AND EQUIPMENT

All property and equipment are initially recorded at cost.

Owner-occupied buildings are subsequently stated at revalued amount less subsequent accumulated depreciation and subsequent accumulated impairment losses.

Depreciation is calculated on the straight-line method to write off the cost of each asset, or the re-valued amounts, to their residual values over their estimated useful life as follows:

Buildings 50 years
Furniture & fittings 6 years
Computer equipment & software 3 years

Maintenance and repairs, which neither materially add to the value of assets nor appreciably prolong their useful lives, are charged against income.

1.3. FINANCIAL INSTRUMENTS

Measurement

Financial instruments are initially measured at fair value as of trade date, which excludes transaction costs. Subsequent to initial recognition, these instruments are measured as set out below.

Financial instruments are recognised on acquisition using trade date accounting, which includes transaction costs. Upon initial recognition financial instruments are designated at fair value through the statement of changes in net assets and funds as the assets or liabilities are managed, evaluated and reported internally on a fair value basis and/or the designation eliminates or significantly reduces an accounting mismatch which would otherwise arise.

Subsequent to initial recognition, these instruments are measured as set out below.

1.3.1. Investments

Investments are classified at fair value through the statement of changes in net assets and funds and are measured at fair value.

Debentures

Debentures comprise investments in listed and unlisted debentures.

Listed debentures

The fair value of listed debentures traded on active liquid markets is based on regulated exchange quoted ruling closing prices at the close of business on the last trading day on or before the statements of net assets and funds date.

Unlisted debentures

Unlisted debentures are financial assets with fixed or determinable payments and fixed maturity. Fair value is estimated using pricing models or by applying appropriate valuation techniques such as discounted cash flow analysis or recent arm's length market transactions in respect of the unlisted debenture.

Bills and bonds

Bills and bonds comprise investments in government or provincial administration, local authorities, participating employers, subsidiaries or holding companies and corporate bonds.

SCHEDULE HA NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED 30 JUNE 2021

1.3.1. Investments (continued)

Listed bills and bonds

The fair value of listed bills and bonds traded on active liquid markets is based on regulated exchange quoted ruling closing prices at the close of business on the last trading day on or before the statements of net assets and funds date.

Unlisted bills and bonds

A market yield is determined by using appropriate yields of existing bonds and bills that best fit the profile of the instrument being measured and based on the term to maturity of the instrument. Adjusting for credit risk, where appropriate, a discounted cash flow model is then applied, using the determined yield, in order to calculate the fair value.

Equities

Equity instruments consist of equities with primary listing on the Johannesburg Stock Exchange, equities with secondary listing on the Johannesburg Stock Exchange, foreign listed equities and unlisted equities.

Equity instruments designated as fair value through the statement of changes in net assets and funds by the fund are initially recognised at fair value on trade date.

Listed equities

Equity instruments are subsequently measured at fair value and the fair value adjustments are recognised in the statement of changes in net assets and funds. The fair value of equity instruments with standard terms and conditions and traded on active liquid markets is based on regulated exchange quoted ruling closing prices at the close of business on the last trading day on or before the reporting date.

Unlisted equities

If a quoted closing price is not available i.e. for unlisted instruments, the fair value is estimated using pricing models, or by applying appropriate valuation techniques such as discounted cash flow analysis or recent arm's length market transactions in respect of equity instruments.

Preference shares

Listed preference shares

The fair value of listed preference shares traded on active liquid markets is based on regulated exchanged quoted ruling closing prices at the close of business on the last trading day on or before the reporting date.

Insurance policies

Linked or market-related policies

If the policy is unitised, the value is equal to the market value of the underlying units. Other linked or market-related policies are valued at the market value of the underlying assets for each policy, in line with the insurer's valuation practices.

Private Equity Investments

Private equity investments are investments in equity capital that is not quoted on a public exchange. Private equity investments are valued in accordance with the Internatiol Private Quity and Venture Capital Valuation Guidelines.

Collective investment scheme

Investments in collective investment schemes are valued at fair value which is the quoted unit values, as derived by the collective investment scheme manager with reference to the rules of each particular collective investment scheme, multiplied by the number of units.

Derivative Market Instruments

Derivative market instruments consist of options, equity linked instruments, futures/forwards – SAFEX/foreign, currency swaps and interest rate swaps.

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value. Fair values are obtained from regulated exchange quoted market prices in active markets, including discounted cash flow models and option pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. The fund does not classify any derivatives as hedges in a hedging relationship.

The best evidence of the fair value of a derivative at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of that instrument is evidence by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) based on a valuation technique whose variables include only data from observable markets.

1.3.1. Investments (continued)

Futures/forward contracts

The fair value of publicly traded derivatives is based on quoted closing prices for assets held or liabilities issued, and current offer prices for assets to be acquired and liabilities held.

Swaps

Swaps are valued by means of discounted cash flow models, using the swap curve from a regulated exchange (BESA) to discount fixed and variable rate cash flows, as well as to calculate implied forward rates used to determine the floating interest rate amounts. The net present values of the fixed leg and variable leg of the swap are offset to calculate the fair value of the swap.

Where the effect of discounting to present value is material, provisions are adjusted to reflect the time value of money.

1.15. ASSET IMPAIRMENT

The carrying amounts of the Fund's assets are reviewed at each reporting date to determine whether there is any indication of impairment. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of the asset. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of a financial asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Changes in Net Assets and Funds.

The Fund first assesses whether objective evidence of impairment exists for financial assets that are individually significant, such as service provider debtors. In the case of assets which are not individually significant, such as contribution debtors, financial assets are grouped on the basis of similar credit characteristics, such as asset type and past-due status. These characteristics are used in the estimation of future cash flows recoverable.

The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If, in a subsequent period, the amount of the impairment loss decreases, and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed in the Statement of Changes in Net Assets and Funds.

1.16. MEMBER INDIVIDUAL ACCOUNTS

Member individual accounts comprise of the funds attributable to individual members, represented by investments and cash.

1.17. AMOUNTS TO BE ALLOCATED

16. RISK MANAGEMENT POLICIES

Risk management framework

The Board of Fund has overall responsibility for the establishment and oversight of the fund's risk management policies. The Board of Fund has established the Executive Committee, which is responsible for developing and monitoring the fund's risk management policies. The committee reports regularly to the Board of Fund on its activities.

The fund's risk management policies are established to identify and analyse the risks faced by the fund, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the fund's activities.

Solvency risk

Solvency risk is the risk that the investment returns on assets will not be sufficient to meet the Funds contractual obligations to members.

Continuous monitoring by the Board and the Fund's actuary takes place to ensure that appropriate assets are held where the Fund's obligation to members are dependent upon the performance of specific portfolio assets and that a suitable match of assets exists for all other liabilities.

Credit risk

Credit risk is the risk that a counter-party to a financial instrument will fail to discharge an obligation, and cause the Fund to incur a financial loss.

The Board monitors receivable balances on an ongoing basis with the result that the Fund's exposure to bad debts is not significant. An appropriate level of provision is maintained.

Legal risk

Legal risk is the risk that the Fund will be exposed to contractual obligations which have not been provided for.

Legal representatives of the Fund monitor the drafting of contracts to ensure that rights and obligations of all parties are clearly set out.

16. RISK MANAGEMENT POLICIES (continued)

Cash flow risk

Cash flow risk is the risk that future cash flows associated with monetary financial instruments will fluctuate in amount. In the case of a floating rate debt instrument, for example, such fluctuations result in a change in the effective interest rate of the financial instrument, usually without a corresponding change in its fair value.

The Board of Fund monitors cash flows by using monthly cash flow projections.

Currency risk

Currency risk is the risk that the value of an instrument will fluctuate in Rands owing to changes in foreign exchange rates. The Fund's exposure to currency risk is mainly in respect of foreign investments made on behalf of members of the Fund for the purpose of seeking desirable international diversification of investments.

The Board of Fund monitors this aspect of the Fund's investments and limits it to 30% (plus as additional 10% Africa) of total assets.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in raising funds to meet commitments associated with financial instruments.

Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices of market interest rates.

Investments

Investments in equities are valued at fair value and therefore susceptible to market fluctuations. Investments are managed with the aim of maximising the Fund's returns while limiting risk to acceptable levels within the framework of statutory requirements.

Continuous monitoring takes place to ensure that appropriate assets are held where the liabilities are dependent upon the performance of specific portfolios of assets and that a suitable match of assets exists for all non-market related liabilities.

REPORT OF THE VALUATOR FOR THE YEAR ENDED 30 JUNE 2021

Details of the actuarial basis adopted (including that in respect of any contingency reserve) and details of any changes since the previous summary of report.

Refer to par. 5 above.

7. Any other particulars deemed necessary by the valuator for the purposes of this summary.

The statutory valuation report as at 30 June 2020 was discussed at the board of management meeting held on 24 June 2021 and submitted to the FSCA on 28 June 2021 under case number 535427. The board took a number of decisions, on recommendation of the actuary:

a) Allocation of excess assets to data and processing error reserve account

The statutory valuation as at 30 June 2020 disclosed an excess of R 75 322 000 (corresponding to a funding level of 100.41%), which is within acceptable margins.

The board accepted the actuary's recommendation that this balance be transferred to the newly established data and processing error reserve account effective 1 July 2020 (per rule amendment no.4 registered on 11 August 2020 under case number 515654). This reduced the overall funding level of the fund to 100.0% at the valuation date.

b) Expense reserve account

The accumulated balance in the expense reserve account amounted to R 131 068 000 or 0.73% of member liabilities at the valuation date. The rules of the fund were amended with effect from 1 July 2020 to allow for transfers between the fund's reserve accounts, as decided by the board of trustees on advice of the actuary, per rule amendment no. 4 referred to above. The board accepted the actuary's recommendation that an amount of R 100 000 000 be transferred from the expense reserve account to the risk reserve account in terms of rule 9.18(b)(iii) and 9.17(a)(ii) respectively. The transfer reduced the balance in the expense reserve account to R 31 068 000 or 0.18% of member liabilities at the valuation date.

c) Risk reserve account (previously known as the contingency reserve account)

The statutory valuation report as at 30 June 2020 indicated an accumulated balance in the contingency reserve account of R 162 094 000 or 0.90% of member liabilities. The name of this account was changed to the risk reserve account with effect from 1 July 2020, per rule amendment no.4 registered on 11 August 2020. The balance in the risk reserve account increased to R 262 094 000 or 1.45% of member liabilities at the valuation date, after taking into account the above-mentioned recommendation that an amount of R 100 000 000 be transferred to this reserve account from the expense reserve account.

The risk benefits (that is, death, disability and funeral benefits) are fully reinsured with Sanlam. Due to poor claims experience in light of the COVID-19 pandemic, the premium rates payable to Sanlam increased on average by 55% with effect from 1 July 2021. The fund has a positive balance in the risk reserve account and the board accepted the actuary's recommendation that the increase in premiums be absorbed by the balance in the risk reserve account. This will be beneficial for members as their net savings for retirement benefits will not be negatively affected by the increase in premium rates. A rule amendment has been drafted to make specific allowance for such subsidies.

REPORT OF THE VALUATOR FOR THE YEAR ENDED 30 JUNE 2021

8. A statement as to whether the fund was in a sound financial condition for the purposes of the Pension Funds Act, 1956.

The assets of the fund as at 30 June 2020 are sufficient to cover 100.0% of the members' liabilities and various recommended reserve balances and the fund was hence financially sound.

Independent Auditor's Reasonable Assurance Report on Assets Held in Compliance with Regulation 28 of the Pension Funds Act No. 24 of 1956, as amended

Report on Compliance of Schedule IB with Regulation 28 of the Act

We have undertaken our engagement in accordance with Section 15 of the Pension Funds Act No. 24 of 1956, as amended (the Act) in order to provide the Board of Fund of National Fund for Municipal Workers (the Fund) with a reasonable assurance opinion that Schedule IB "Assets held in compliance with Regulation 28" (the Schedule) on pages 68 to 73 at 30 June 2021 is prepared in all material respects in accordance with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) of the Act, and the Fund has complied, in all material respects, with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) as at 30 June 2021.

The Board of Fund's responsibility for the Schedule

The Board of Fund is responsible for ensuring that the Schedule is prepared in accordance with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) and for compliance of the Fund with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9). This responsibility includes the design, implementation and maintenance of internal controls relevant to the preparation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on whether the Schedule is prepared in accordance with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) and whether the Fund complies with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) based on performing a reasonable assurance engagement.

We performed our reasonable assurance engagement in accordance with the International Standard on Assurance Engagements 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information (ISAE 3000 (Revised)) issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the Schedule is prepared in accordance with Regulation 28 (3)(a), (3)(c), (3)(c), (3)(c), (4), (8) and (9) and whether the Fund complies with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9).

A reasonable assurance engagement in accordance with ISAE 3000 (Revised) involves performing procedures to obtain sufficient appropriate evidence that the Schedule is prepared in accordance with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) and that the Fund complies with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9). The nature, timing and extent of procedures selected depend on the auditor's judgement, including the assessment of the risks of non-compliance with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9), whether due to fraud and error. In making those risk assessments we consider internal control relevant to the engagement in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.

Inherent limitations

The Fund has investments in collective investment scheme and linked policies as defined in the Long Term Insurance Act. The Fund obtained confirmations including a breakdown of the underlying assets from the schemes, long-term insurers and issuers of these investments at 30 June 2021, the year-end of the Fund.

In certain instances, these confirmations were not subjected to audit procedures by the auditors of the different schemes, long-term insurers and issuers as at 30 June 2021.

We have not assessed the accuracy and completeness of the information included in these confirmations obtained from the schemes, long-term insurers and issuers to the value of R8 939 998 142 at 30 June 2021. We are unable to conclude on the accuracy and completeness of these confirmations beyond whether the confirmations in total agree to the underlying accounting records of the Fund.

Summary of work performed

We completed our audit of the annual financial statements of the National Fund for Municipal Workers for the year ended 30 June 2021, prepared in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa, on which we issued an unmodified opinion on 13 December 2021. That audit was performed in accordance with International Standards on Auditing. Where appropriate, we have drawn on evidence obtained regarding information contained in the Schedule that has been extracted from the Fund's underlying accounting records that were the subject of our audit engagement on the annual financial statements and forms the subject matter of this engagement.

We have performed such additional procedures as we considered necessary which included.

- Evaluating whether confirmations from financial institutions are in support of the records made available to us;
- Inspecting the required documentation in terms of Regulation 28(8)(b) for investments excluded from total assets in terms of Regulation 28(8)(b));
- Evaluating whether the investments are classified correctly per the categories of Schedule IB based on information obtained about the nature of investments from the financial institutions;

- Recalculating the percentages of assets held in relation to total assets; and
- Comparing the percentages calculated to the prescribed limits.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our unqualified opinion.

Opinion

In our opinion, the Schedule IB "Assets held in compliance with Regulation 28" at 30 June 2021 is prepared in all material respects in accordance with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) of the Act, and the Fund has complied, in all material respects, with Regulation 28 (3)(a), (3)(c), (3)(e)-(j), (4), (8) and (9) as at 30 June 2021.
